

VEHICLE IDENTIFICATION NUMBER

DESCRIPTION

The Vehicle Identification Number (VIN) plate is attached to the top left side of the instrument panel. The VIN contains 17 characters that provide data concerning the vehicle. Refer to the decoding chart to determine the identification of a vehicle.

To protect the consumer from theft and possible fraud the manufacturer is required to include a Check Digit at the ninth position of the Vehicle Identification Number. The check digit is used by the manufacturer and government agencies to verify the authenticity of the vehicle and official documentation. The formula to use the check digit is not released to the general public.

813c5958

VIN DECODING INFORMATION

POSITION	INTERPRETATION	CODE = DESCRIPTION
1	Country of Origin	1 = Manufactured by DaimlerChrysler Canada Inc.
2	Make	A = Chrysler (Hatchback) B = Dodge (Sedan) C = Chrysler (Sedan) D = Dodge (Hatchback)
3	Vehicle Type	3 = Passenger Car 4 = Multipurpose Passenger Vehicle Without Side Air Bags Sales Code (CGS) (Hatchback) 8 = Multipurpose Passenger Vehicle With Side Air Bags Sales Code (CGS) (Hatchback)
