

## PUMPKIN CARVING INSTRUCTIONS

Download/Print pumpkin template.

Trim and make small incisions in your pattern so that it lies flat on the face of the pumpkin. Tape the edges of the pattern to the pumpkin.

The black shapes will be carved from the pumpkin. Transfer the pattern by poking small holes along the black shapes with a push pin.

Remove the pattern.

Saw carefully along the dotted lines. Gently push the pieces through with your fingers.

Anchor a candle in the bottom of the pumpkin and light the candle. You're now ready to display your best jack-o'-lantern ever.
